Low and/or No Wealth: enough money to meet basic living costs and pay bills but have no savings to deal with any unexpected spends and no provision for the future.

26/01/2026 If costs are set too high this could impact on local businesses, meaning they are less likely to be able to afford the costs of operating their business. The impact of this along with other business costs could reduce business viability, which could create socio-economic impacts on the individuals supported by that business. The impact of this could be mitigated by ensuring that costs are reflective of the costs that are incurred by the local authority in collecting and treating the waste. If legislation supports it, and an element of additional income is to be brought into the local authority over and above the costs of collecting and treating the waste, this element should not be disproportionate, e.g. 10% maximum.
