

## West Linton Village Centre asset transfer request

### Public comments 08/10/22 - 13/11/22

Comment 1	Excellent idea Very useful addition to the village.
Comment 2	The use of this venue has been very much used and appreciated by the West Linton community. It is a smaller scale venue which makes it ideal for small scale events. It is a valuable asset to have in the village and I hope its future can continue by the granting of this transfer request.
Comment 3	I have been part of several community related events at the Village Centre a concert , Knott Committee Meetings and booksale, and art exhibitions . I would consider hiring the venue for an exhibition myself. It is also used by the RVS to provide a weekly day service for vulnerable older adults. I would love to see the Village Centre continue to expand with the assistance of those who currently give so generously of their time to enhance our community
Comment 4	I support this request. The Village Centre is a very important well used and well run Asset for the Village. It is used by many people within and out with the Village. It enhances Village life and quite frankly we'd be lost without it.
Comment 5	This is a much needed and loved venue which has been widely used over the past few years by the village for various concerts, displays etc. It would be a great asset to the village to keep this lease going
Comment 6	I would fully support this initiative. The Village Centre is ideally situated within walking distance for many people. It is well run and hosts so many and varied things to attend and enjoy from music, horticulture, art. It is so well used, well looked after and is an outstanding facility enjoyed by many.
Comment 7	I hope this request will be agreed to. The Village Centre has always been an asset to West Linton and surrounds, but since being run by the Trustees it has been used for many, many more purposes than ever before, and has become a wonderful wee place for people to meet and enjoy diverse entertainments and information events, as well as continuing to host the Community Council meetings every month. I'm sure that it will continue to do so into the future, if permitted to!

Comment 8	<p>I support West Linton Village Centre being transferred to :-West Linton Village Centre Trust.</p> <p>I use the Village Centre regularly for meetings in that area.</p>
Comment 9	<p>The Village Centre has become an important asset to the Village and hosts an increasing number of groups and events which enrich the community in practical, social and creative ways. It is particularly useful for small groups and events which do not require the use of a larger premises. It is clearly valued given the amount of bookings it now receives and has hosted some very successful events during the last year particularly musical.</p>
