CAUTION: External Email

Dear Sir/ Madam,

I hope you are well.

Please find attached representations for land in Lilliesleaf in response to the Local Development Plan 2 Consultations.

If you have any questions with regards to the attached, please do not hesitate to get in touch.

Best wishes, Lucy

Lucy Moroney Senior Planner

Proposed Local Plan Consultation, Forward Planning Team, Scottish Borders Council, Newtown St Boswells, Melrose, TD6 0SA

Representations to Local Development Plan 2 (Period 2021-2026)- Proposed Plan Consultation

Mr. Stephen Amos, Land south of B6400 at Lilliesleaf

Dear Sir/ Madam,

Introduction

Ferguson Planning has been instructed by Stephen Amos to prepare a representation to the consultation currently being conducted by Scottish Borders Council upon the Proposed Local Development Plan (PLDP2).

This representation relates to his site within Lilliesleaf and is accompanies by a location plan (as shown in the Appendix 1). The site has a potential capacity for up to four dwellings and can help to assist with the housing requirements within the next local development plan period. The site is located towards the southern end of the village and is considered to represent an ideal infill location for residential development.

We note the settlement boundary within the proposed local plan does not extend around the site in question, as such we are seeking the extension of the Lilliesleaf settlement boundary along with the allocation of the site for residential development.

Site Location

The site is located to the south of the B6400 in the south west of the village of Lilliesleaf, extending to the rear of the existing residential dwelling. The site is approximately 0.2ha in size and is in marginal grazing use. The site adjoins the B6400 on either side of the existing residential dwelling offering two points of access within the owners control.

Future occupants of new homes would be within walking distance of the local provisions within Lilliesleaf including the local pub, café and primary school. Access to wider services and facilities can be found within Selkirk and Newtown St Boswells, both up to 7 miles from the site.

Opportunity

It is considered the site represents an infill opportunity and a logical extension to the settlement boundary which will help assist with meeting the housing requirements within the next local development plan period.

The northern boundary of the site is defined by an existing dwelling. Adjoining the eastern and western boundary of the existing residential property are the proposed access points onto the site from the B6400 which offer logical vehicular access points to the proposed residential plots. Adjoining the eastern and western boundaries of the site are further residential properties.

Existing and new boundary treatment would be put in place to form part of proposals coming forward, creating a distanced landscaped border enclosing in the extension to the settlement boundary. As illustrated on the site location plan the proposed site would be in line with the existing built form of the neighboring residential properties and garden land to the north east of the village.

Two sites have been allocated for housing within the proposed Local Development Plan, both of which are also allocated within the current Local Development Plan and are yet to benefit from planning consent. Lilliesleaf is a popular village to live mainly due to its countryside setting and proximity to the neighboring towns such a Melrose, St Boswells, Galashiels, Selkirk and Jedburgh. It is important that land allocations are made in sustainable and sought-after locations.

There are no major constraints associated with the site and no contamination issues. The site is not at a risk of flooding and is on the edge of the existing settlement and therefore is in close proximity to existing infrastructure and utilities.

Proposed Recommendation and Modifications

Recommendation:

That the Land to the south of B6400 Lilliesleaf, given its sustainable location is included within the settlement boundary for Lilliesleaf and allocated for up to 4 residential dwellings.

It is considered the site represents a natural and sustainable infill location for residential development and a logical extension to the settlement boundary.

We kindly request that the subject site is included within the settlement boundary for Lilliesleaf and is allocated for residential development for up to 4 dwellings.

Proposed Modification:

Lilliesleaf Settlement Profile - Housing Table

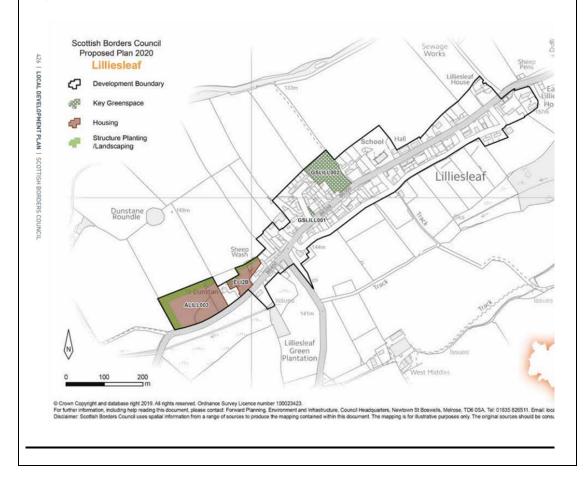

To include the Land to the south of B6400, Lilliesleaf within the Lilliesleaf settlement boundary and allocated for residential development as follows:

Housing

| Site Reference | Site Name | Site Size (ha) | Indicative Site Capacity |
|----------------|---|----------------|--------------------------|
| | Land to the south of B6400, Lilliesleaf | 0.25ha | 4 |

Lilliesleaf Settlement Profile - Settlement Map

Include Field to the south of B6400 in the Settlement Map for housing development as per below:

Conclusion

We believe that the site should be within the settlement boundary for Lilliesleaf and allocated for up to four residential dwellings within the Local Development Plan 2021-2026. The site is deliverable in full within the Local Plan lifespan. There is a market

demand for Lilliesleaf and due to the unconstrained nature of the subject site it is an attractive prospect for shelf build plots or a developer.

The site is located within a sustainable location within walking distance to local services and amenities along with being only a short drive to Selkirk and Newtown St Boswells.

It is considered the site represents a natural extension to the settlement boundary, acting as an infill development between the existing built form. Due it its proximity to the current built form, there will be easy access to utilities and existing infrastructure.

We stress the importance of allocating housing in the Scottish Borders where there is a strong demand to live. Due to its strategic location, there is a strong demand to live in Lilliesleaf and thus we kindly request that the settlement boundary is extended to include the site and the site is allocated for residential development.

| If you have any queries regacontact myself | rding the enclosed | nts, please do colleague | not hesitate to |
|--|--------------------|-----------------------------|-----------------|
| Yours Sincerely | | | |
| | | | |
