

COMMUNITIES & PLACE INTERVENTIONS

S2	Support and improvement of community assets and infrastructure projects (incls support for decarbonisation of facilities, energy efficiency audits, installation of energy efficiency and renewable measures in community buildings (including capital spend and running costs). Limited funds available – capital costs only
S3	Improvements to the natural environment and green and open space which could incl community gardens, watercourses and embankments, along with incorporating natural features into wider public spaces. (ie. enhancement of the natural environment, such as creation of community gardens, orchards etc in under used open spaces for all to enjoy)
S5	Support for sport, arts, cultural, heritage and creative activities, facilities and institutions. Funding no longer available
S6	Active travel enhancements and other small scale strategic transport projects.
S8	Impactful volunteering and/or social action projects to develop social and human capital in local places (ie. volunteering projects which will, for example, clean up a local area, provide longterm solutions to address issues for the young or elderly etc)
S9	Investment in capacity building, resilience and infrastructure (incl climate change resilience) and infrastructure support for local civil society and community groups. Funding no longer available
S10	Community measures to reduce cost of living, incl measure to improve energy efficiency, combat fuel poverty and climate change. (ie. projects which improve cost of living for the community such as those which provide energy efficiency, reduce fuel poverty or react to climate change)
S11	Relevant feasibility studies. Funding no longer available
S12	Digital infrastructure for local community facilities (ie. introduction/improvement of digital infrastructure at community facilities, particularly those in rural areas who have limited access to public transport and other services where internet connectivity could provide benefit)
