2 Accounting Policies

Basis of Preparation

The financial statements have been prepared under historic cost accounting rules modified and in accordance with FRS 102 1A, the Financial Reporting Standard applicable in the UK and Republic of Ireland.

The financial statements are prepared in sterling, which is the functional currency of the company.

Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Fees, charges and rents due from tenants are accounted for as income at the date the relevant service is provided.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption they are carried as inventories on the Balance Sheet.
- Where income and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the balance sheet.
- Income and expenditure are credited and debited to the revenue account, unless they properly represent capital receipts or capital expenditure.

Turnover

Turnover represents invoiced rental income from tenanted residential properties.

Tangible Fixed Assets

The business had no fixed assets in the period.

Cash and Liquid Assets

Cash comprises cash in hand and deposits repayable on demand. Liquid resources are current asset investments which are disposable without curtailing or disrupting the business and are either convertible into known amounts of cash at or close to their carrying values.
