## TWEEDDALE HEALTH & SOCIAL CARE LOCALITY PLAN 2017-2019

In April 2016, we published the Scottish Borders Health and Social Care Partnership's Strategic Plan. The Strategic Plan sets out the Partnerships objectives for improving health and social care services for the people in the Scottish Borders and lays the foundations for the key priorities for improvement going forward.

In parallel to this, Community Planning Partnerships (CPP) are also required to produce Locality Plans under the requirements of the Community Empowerment (Scotland) Act 2015. In the future our aspiration is to bring these plans together within one plan.

Guidance from the Scottish Government is clear that local representatives – including health and social care professionals, third and independent sectors, housing, service users and carers – are given the opportunity to influence and inform service planning as we move towards achieving the objectives set out in the Strategic Plan.

As a result local working groups across the five localities in the Scottish Borders have been established. These working groups are made up of local representatives and they have made a significant contribution to the development of this Locality Plan which focuses on local needs and key priorities for improvement from the perspective of local people who use and deliver health and social care services.

Our aim is that we plan, commission and deliver services in a way that puts people at the heart of decision making as well as meets the needs of local communities. As such we want to continue to work in partnership with everyone who has an interest in improving health and social care services at a local level.

We all want to live in healthy, vibrant communities. We therefore need to work closely together, to bring a focus to all our efforts. The Health and Social Care Partnership spans NHS Borders, Scottish Borders Council, independent and third sectors and the people within the community. As a united team, we will ensure that the futures of our wider communities are bright and healthy.

#### Robert McCulloch-Graham

Chief Officer, Health and Social Care

## TWEEDDALE HEALTH & SOCIAL CARE LOCALITY PLAN 2017-2019

## 2. CONTEXT FOR THIS PLAN

The Scottish Government, through the Public Bodies (Joint Working) (Scotland) Act 2014 has two very clear aims. www.legislation.gov.uk/asp/2014/9/pdfs/asp\_20140009\_en.pdf

Better **outcomes and experiences** for individuals and communities

Better **use of resources** across health, care and support systems at national and local levels.

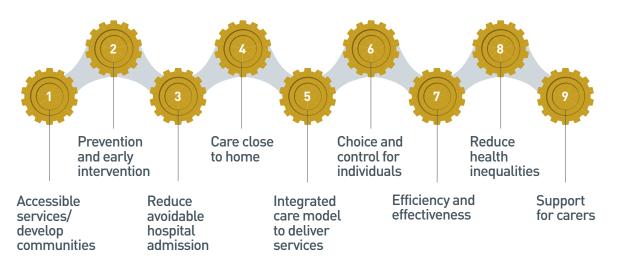

In order to address these aims and after extensive consultation during 2015-2016, the Scottish Borders Health & Social Care Partnership published its Strategic Plan where the following vision and objectives are outlined.

#### Scottish Borders Strategic Plan 2016 - 19

"work together for the best possible health and well-being in our communities"

#### 9 Scottish Borders Local Objectives

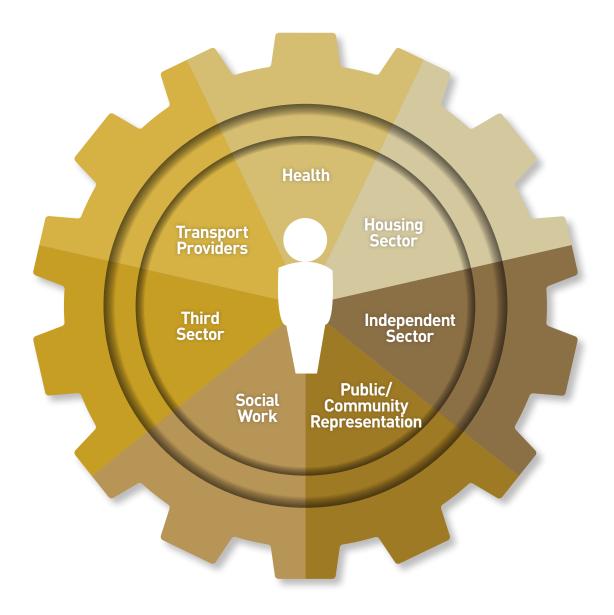

(defined during consultation on our Strategic Plan in 2015)

The Borders Health & Social Care Strategic Plan can be accessed www.scotborders.gov.uk/HSCStrategicPlan

How the Partnership seeks to meet the Objectives laid out in the Strategic Plan at a local level requires to be demonstrated in a local plan. The Scottish Borders already has five localities – Berwickshire, Cheviot, Eildon, Teviot & Liddesdale and Tweeddale. **This plan is for Tweeddale**.

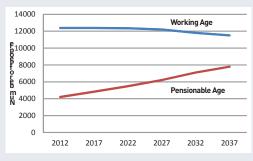

Five Locality Working Groups have been established and have contributed to the development of the five local plans. All key stakeholders are represented on the locality working groups as indicated below:

Details of the Tweeddale Locality Working Group can be found **www.scotborders.gov.uk/TweeddaleLocality** 

## 3. THE TWEEDDALE AREA - AREA PROFILE

#### **PROJECTED POPULATION 2012-2037** FOR TWEEDDALE

28.1%

decrease in

working age

85.1% increase in pensionable age

#### LIFE EXPECTANCY RANGE

77.6 to 81.2 yrs men (Scottish Borders = 78.1)

#### 80.9 to 84.5 yrs women (Scottish Borders = 82)

Higher rate of of coronary heart disease (Compared to Scottish Borders and Scotland)

Lower rate of early deaths of coronary heart disease or cancer

Rate of alcohol related hospitalisations (518.4 per 100,000) has risen in last 12 vears, increasing from lowest to 3rd highest in the Scottish Borders (566.0)

#### POPULATION

20,175 population\* (17.8% of the Scottish Borders)

**18.8%** aged 0-15 (Scottish Borders = 16.7%)

61.6% aged 16-64 (Scottish Borders = 60.2%)

19.6% aged 65+ (Scottish Borders = 23.1%)

16.4% of registered\*\* unpaid carers are based in Tweeddale\*\* Borders Carers Centre

\*(est 2014)

#### HEALTH OF THE LOCALITY

#### **A&E ATTENDANCE**

54.0% non-emergencies could be cared for within **Locality** (last year 51.1%)

**46.0%** emergencies require hospital care (last year 48.9%)

Lower rate of emergency hospitalisations (compared to Scottish Borders)

Lowest rate 3.96 of Over 75 Falls per 1,000 (Scottish Borders = 5.62)

#### NEIGHBOURHOOD AND COMMUNITY INFLUENCES ON HEALTH

13.8% report Accessibility to public transport as an issue (Scottish Borders = 16.6%)

3.5% feel lonely or isolated (Scottish Borders = 6.1%)

**12** culture and sport facilities operated by the public sector (Scottish Borders = 69)

Tweeddale is the least deprived locality with none of its population living in the most deprived deciles and over 75% living in least deprived.

Lower percentage of pension credit claimants (4.9%) than Scottish Borders (5.8%) and Scotland (7.7%)

Among lowest suicide rates 12.9 per 100,000 (Scottish Borders=15.7; Scotland =14.7)

#### AREA

28.4% live in an area of less than 500 people (Scottish Borders = 27.4%)

47% live in rural areas 15% Remote rural 32% Accessible rural

#### Settlements with more than 500 people:

TOWN	POPULATION	
Peebles	8,583	
Innerleithen	3,064	
West Linton	1,561	
Cardrona	919	
Walkerburn	711	

#### LONG TERM CONDITIONS

898 on Diabetes Register 5.5 % of GP Register over 15 yrs

**148** on **Dementia Register** 3.54% of GP Register over 65 yrs

5410 per 100,000 Multiple emergency hospitalisations Patients 65+ (Tweeddale has a higher rate) (Scottish Borders = 5122.5 Scotland = 5159.5)

#### SAFETY

Lowest rate 0.42 of fires in homes per 1,000 (Scottish Borders = 0.74)

**11.5%** say there are **areas** where they feel unsafe (Scottish Borders = 12.5%)

Highest number of residents involved in voluntary work (Tweeddale 33.6%; Scottish Borders 27.4%)

**Teviot and** Liddesdale

6 | HEALTH & SOCIAL CARE LOCALITY PLAN 2017-2019 | TWEEDDALE

## 3. THE TWEEDDALE AREA SERVICES & SUPPORT 2017-2019

## TWEEDDALE HEALTH & SOCIAL CARE LOCALITY PLAN 2017-2019

# 4. PRIORITIES FOR TWEEDDALE 2017-2019

#### Our understanding of Tweeddale is taken from:

- our analysis of both national and local data and statistics (e.g. Area Profile)
- the knowledge and experience of our service users and carers
- the views of the Locality Working Group
- the knowledge and experience of staff working within the community

## The following priorities for Tweeddale have been identified and will contribute to the 9 local objectives for Integration:

PRI	ORITIES FOR TWEEDDALE	WHAT MAKES THIS A PRIORITY FOR TWEEDDALE
•	Improve the availability and accessibility of services for people living in rural areas and towns across Tweeddale	<ul> <li>limited access to transport networks in rural areas</li> <li>tendency for services to be located in large settlement areas</li> <li>lack of care at home providers in the rural areas</li> </ul>
•	Increase the availability of locally based rehabilitation services	<ul> <li>limited allied health professional services in the community</li> <li>limited rehabilitation support workers in the community</li> <li>no domiciliary physiotherapy services in the community</li> <li>limited access to day hospital services</li> </ul>
•	Increase the range of care and support options available across the locality to enable people to remain in their own homes and communities	<ul> <li>difficulty recruiting and sustaining capacity in provider organisations</li> <li>lack of paid carers across locality</li> <li>lack of domiciliary care provision</li> <li>no transitional care beds in Tweeddale</li> <li>increased reliance on residential and nursing home placements</li> <li>tendency to pilot different models and approaches within one locality with no roll out to other localities</li> </ul>
•	Increase the range of housing options available across the locality	• significant projected increase in people of pensionable age limited options for suitable housing in rural/outlying areas
•	Improve support for unpaid carers	<ul> <li>high proportion of unpaid carers across the locality</li> <li>without unpaid carers there would be more pressure on NHS, Social Work and Third Sector organisations</li> <li>Carers (Scotland) Act 2016 legislates for support for unpaid carers</li> </ul>

Work is currently underway to support the delivery of the 9 Local Objectives and an action plan has been developed which identifies work required to ensure the ongoing delivery of the priorities for Tweeddale. This is summarised in **Appendix 1**. Some areas of work/actions are repeated, where they are relevant to more than one priority.

There are some actions which are common across the whole of the Scottish Borders and will be progressed at a Scottish Borders Partnership level, for example the provision of IT access within integrated sites. These actions can be viewed in the Borders wide summary plan in **Appendix 2**.

These actions will be continually evaluated and the plan updated annually.

## APPENDIX 1 ACTION PLAN FOR TWEEDDALE

## **PRIORITY:** Improve the availability and accessibility of services for people living in rural areas and towns across Tweeddale

Key to actions = In Progress \* / Action Required \*\*

WORK UNDERWAY	ACTION IN PROGRESS*/ ACTION REQUIRED**	HOW THIS CONTRIBUTES TO THE PRIORITY	OWNER	TIMEFRAME
Re-design Locality Based Integrated Health & Social Care Teams	<ul> <li>Design and Implementation of Integrated Health &amp; Social Care Team within the Tweeddale Locality**</li> </ul>	<ul> <li>Improves access to health and social care services at a local level</li> <li>Sharing of information to support people at home</li> <li>Improves sharing of information at a local level</li> <li>Improves staff understanding of roles and responsibilities</li> <li>Increases efficiency and reduce duplication</li> <li>Improves access to care at home</li> <li>Supports the prevention of unnecessary admission to hospital</li> <li>Provides alternatives to attendance at hospital</li> <li>Reduces inequalities for people within rural areas</li> </ul>	Chief Officer, Scottish Borders Health and Social Care Partnership	2017-2019

## HEALTH & SOCIAL CARE LOCALITY PLAN 2017-2019 GLOSSARY OF TERMS

Below is a list of terms, phrases and abbreviations commonly used in the Scottish Borders Health and Social Care Locality Plan along with a description of how they apply to the Locality plans.

TERM	DESCRIPTION
Allied Health Professionals (AHP)	Allied Health Professionals (AHPs) e.g. physiotherapists / occupational therapists support people of all ages in their recovery, helping them to regain movement or mobility, overcome visual problems, improve nutritional status, develop communication abilities and restore confidence in everyday living skills, consequently helping them to enjoy quality of life, even when faced with life limiting conditions.
	They work as key members of multi-disciplinary, multi-agency teams, bringing their rehabilitation focus and specialist expertise to the wider skills pool
Accessible Services	The ability to get care and support when needed
Borders Community Transport Hub	A one-stop approach to affordable transport for those in the Scottish Borders who are unable to use public transport or do not have access to a car. Phone: 0300 456 1985 borderscommunitytransporthub@gmail.com
Buurtzorg	Buurtzorg is a nurse-led, nurse-run organisation where support workers provide home care and support to people in their own surroundings. Buurtzorg nursing teams work with primary care providers, community supports, and family resources to bring patients to optimal functioning as quickly as possible.
Carers (Scotland) Act 2016	The Act is designed to support carers' health and wellbeing and help make caring more sustainable.
Clinical Productivity Programme	Provide personalised, evidence based care as close to home as possible. Working with people to define treatment goals and optimise outcomes. Supporting people to stay well; treat illness and manage crises.
Community Care	Care for people who are ill, elderly, or disabled, which is provided within the community rather than in hospitals or institutions. The preference is to support people in the community, especially in their own homes, where possible.
Community Connector	Connecting people to local services, facilities and activities, and providing them with tailored and informed support
Coproduction	People who run services working together with people who use services and Carers and frontline staff as equals to help make services better for people
Demand Responsive Transport (DRT)	An advanced, user-oriented form of public transport characterised by flexible routing and scheduling of small/medium vehicles operating in shared-ride mode between pick-up and drop-off locations according to passenger's needs.
Distress Brief Intervention in Mental Health (DBI)	The DBI is a short intervention for people in distress who do not need emergency medical treatment, in settings like A&E departments or GP surgeries. Specially trained staff will help them to manage difficult emotions and problem situations early on, and come up with a 'distress plan' to prevent future crisis.
	The DBI approach is initially being piloted over 53-months (November 2016 to March 2021) by NHS Borders Joint Mental Health Service.
Dual Diagnosis	'Dual Diagnosis' is used in health services to describe people with mental health problems, who also misuse drugs or alcohol
Extra Care Housing (ECH) & Housing with Care (HwC)	Housing designed with the needs of frailer older people in mind and with varying levels of care and support available on site for 24 hours a day (ECH) or from 7am till 10pm (HwC). People who live in this type of housing have their own self-contained homes, their own front doors and a legal right to occupy the property.
Frailty	Is a distinctive health state related to the ageing process in which multiple body systems gradually lose their in-built reserves.
Healthy Living Networks	Network covering 5 localities involved in food and health work, physical activity, mental health and volunteering. Includes community lunch provision and cooking skills courses.
Integrated Care Model	People benefit from care that is person-centered and coordinated within healthcare settings, across mental and physical health and across health and social care. For care to be integrated, organisations and care professionals need to bring together all of the different elements of care that a person needs.
Integration	In this case, it means health and social care services working closer together to help achieve better outcomes for individuals and communities in the Scottish Borders

Integrated Joint Board	A new legal entity that binds the Health Board and the Local Authority together in a joint arrangement. The
(IJB)	membership of an Integration Joint Board reflects equal participation by the Health Board and Local Authority to ensure that there is joint decision making and accountability.
Intergenerational Support	Learning opportunities or activities and support that involve people of more than one generation who are not necessarily related
JSA	Job Seekers Allowance
Key Stakeholders	An individual, group or organisation that can affect, be affected by, or perceive itself to be affected by, an initiative (program, project, activity, risk)
Locality Working Groups (LWG)	LWG comprises of key representatives whose primary function is to operate as a working group with responsibility for the planning, design and delivery of the Health and Social care model within each Locality in line with the Scottish Borders Partnership Strategic Plan and Scottish Governments Locality Guidance.
Long Term Condition (LTC)	A long term condition (also called chronic condition or chronic diseases) can be defined as health problems that require ongoing care and management over a period of years.
Matching Unit	A small central administrative team or 'Matching Unit', to match a Care at Home provider to the assessed needs of clients
My Home Life	My Home Life is a UK-wide initiative to promote quality of life for those living, dying, visiting and working in care homes for older people through relationship-centered and evidence based practice.
Options appraisal	Systematic evaluation of the relative pros and cons of alternative options in meeting specific health and Social Care objectives.
Outcome measures	Mortality, readmission, patient experience, etc. are the quality and cost outcomes that Health and Social Care organisations are trying to improve.
Patient Pathways	The route a patient follows from first contact with an NHS member of staff through referral to completion of treatment.
Person Centered Care	Person Centered Care is a mutual partnership between clients, their families and those delivering healthcare services as well as social care support which respect the individual needs and values of each person and demonstrates compassion, continuity, and clear communication along with shared decision-making.
Risk Taking	Risk management is the activity of exercising a duty of care where positive and negative risks are identified The activities may involve preventative, responsive and supportive measures to reduce the potential negative consequences of risk and to promote the potential benefits of taking appropriate risks
Prevention and Early Intervention	Prevention is intervening before something becomes a problem; whereas 'early intervention' is about responding where there is already a problem, but trying to tackle it in its early stages. Pre-empting their occurrence, rather than treating their consequences.
Reablement	Time-limited support services that aim to help people learn or re-learn the skills necessary for daily living.
Rehabilitation	Rehabilitation is to restore some or all of a person's physical, sensory, and mental capabilities that were possibly lost following a hospital admission.
Respite	Respite care involves short term or temporary care of a few hours or weeks. Respite care is designed to enable both the cared-for person and the regular care-giver to experience a break.
Self-Directed Support (SDS)	Self-directed support (SDS) is a term that describes the ways in which individuals and families can have informed choice about how their support is provided to them. It is most commonly used in the delivery of social care and support but it can cover a much wider range of services.
Sustainable Transport	Allows the basic access needs of individuals and societies to be met safely in a manner consistent with human and ecosystem health, and with equity within and between generations
Strategic Housing Investment Plan (SHIP)2018-23	Sets out how investment in affordable housing will be directed over a five year period to achieve the outcomes in the Local Housing Strategy.
Telehealth care	Is a term used to describe a range of equipment used to support people in their own homes such as community alarm schemes
Third Sector	Community Groups, voluntary organisation's, co-operatives and individual volunteers.
Transitional Care Beds	Transitional Care beds aim to reduce the number of older people experiencing inappropriate, extended lengths of stay in hospital or being prematurely admitted to residential care. Transitional Care Beds also enable older people to have more time in a non-hospital environment to complete their restorative process.
"What Matters Hub"	The What Matters hubs offer residents the chance to attend drop-in sessions in their own communities and meet with a range of professional staff and trained volunteers to get advice about social care needs, general wellbeing and independence.
