

### SCOTTISH BORDERS COUNCIL CORPORATE PRIORITIES ANNUAL SUMMARY OF PERFORMANCE 2015/16 HOW ARE WE DOING?

In 2013, we published our Corporate Plan, with eight priorities to work towards over a five year period. This summary provides an overview of performance during 2015/16, under each of the 8 Corporate Priorities. We continue to make significant progress across a number of key areas such as the economy and education, but recognise that there are ongoing challenges to face in the coming years. Reviewing performance information regularly is a vital part of ensuring we stay focused on what is important; *ensuring the best quality of life for everyone in the Scottish Borders, prosperity for our businesses and good health and resilience for all our communities.*

#### Partnership working

Targeted work across SBC and with partners has resulted in significant financial gains for people who contacted our Welfare Benefits Services for advice and support. As well as assisting people through the complexities of a changing social security system, there have been a number of successful initiatives within the Early Years Centres, taking a holistic approach to maximising income. Close working with midwives and attendance at a number of local "Bumps to Babies" and similar events has led to increased gains for clients of £500,000.

#### Case Study

Hawick Community Recycling Centre (CRC)

The Council is facing increasingly challenging recycling targets and financial pressures and the performance at our CRCs will be critical in whether they can be achieved or not.

In April 2015 Hawick Community Recycling Centre at Mansfield Road re-opened following a £350,000 investment in improvements. Benefits include enhanced traffic management through the use of one-way traffic flow which keeps the public away from the working areas of the recycling centre.

In 2015, Hawick CRC achieved a recycling rate of 52%, helping to divert 1,427 tonnes of waste from landfill. This helped the Council to avoid landfill tax costs of £119,000 which could be invested into other services.

### 06 DEVELOP OUR WORKFORCE HOW ARE WE DOING?

### SBC Modern Apprentices 2015/16

#### Scottish Borders COUNCIL

#### **Case Study** Work Opportunities

Our Work Opportunities scheme is designed to improve the employment prospects of young people, those further from the labour market, the long term unemployed and those with disabilities.

In 2015/16 Scottish Borders Council provided 56 work opportunities across areas as diverse as Finance, Human Resources, Engineering and Customer Services.

One success story is Scott Hamilton. Scott initially started with the Council on work experience before entering the Work Opportunities Scheme in December 2014 as a Modern Apprentice (MA) in our Human Resource (HR) service. In January 2016, after a successful interview, Scott took up a clerical post within HR, a role he was familiar with due to his experience as a MA.

"I really love working at the Council as it has such a good working atmosphere and everyone is so easy to get on with. The work has been interesting and enjoyable and everyone has been eager to help me understand the work . The Modern Apprenticeship has given me hands on experience and helped me gather a real in-depth knowledge of the subject "

#### Learning from Complaints

During 2015/16, customer complaints helped us to make improvements in the following areas:

- Issuing of bus passes to people with a disability or medical condition- work with Transport Scotland and DVLA to avoid unnecessary delays
- Registering a death- the development of an online system to help people at a difficult time
- Review of referral policies within Social Work- ensure that service users are aware of information that is being shared with other agencies.
