Subject: Proposed Development at Netherbarns

Sir

Proposed development at Netherbarns

I am astonished and deeply disappointed that anyone at Scottish Borders Council, or the owner of the site, should think it appropriate to bring this proposal forward yet again, after similar applications have been rejected on four previous occasions at Public Inquiries.

This proposed suburban development would have a severe negative impact on Abbotsford and its estate. It is the duty of SBC to protect this historic site, including Scott's designed landscape. It is Scottish Borders most important and iconic tourist attraction, bringing thousands of visitors not only from across the UK but also from across the world, making Abbotsford an important financial as well as cultural asset to the Scottish Borders.

I object to this proposal in the strongest possible terms.

Yours
