

# Food Waste Recycling Lesson Plan

## Before you start

This lesson should only be delivered in schools whose Council area collects food waste. You should check that food waste can be recycled by using the **Recycling Locator**:

- 1 Click to open the [Recycling Locator](#)
- 2 Click **How to Recycle at home**
- 3 Enter your school's town or postcode
- 4 Find out if food waste can be recycled in your school's council area

## Aim

The aim of this lesson is to educate primary school pupils aged 7-11 in Scotland on food waste recycling. It intends to inform children of Zero Waste Scotland's relevant key messages which include: why we should recycle food waste, what food waste can be recycled and the food waste recycling journey, including statistics about food waste recycling.

The Food Waste Recycling Lesson has been designed to take approximately 35 minutes and the optional bolt-on to take up to an additional 25 minutes to be delivered by a class teacher or waste officer.

Learning Objectives	Success Criteria
To understand why we should recycle food waste	✓ Explain how food waste recycling is good for the environment/ saves money
To identify at least 3 food waste items that we can recycle	✓ Participate in the 'food waste recycling quiz' and the bolt-on 'food waste recycling game'
To know what happens to food waste when it is recycled	✓ Participate in the 'food waste recycling journey activity' and the 'food waste recycling quiz'

## Justification

In 2011, Zero Waste Scotland launched the [Recycle for Scotland](#) campaign, building on the established UK-wide Recycle Now brand. Recycle for Scotland provides advice and information on how to recycle, and encourages increased recycling behaviour both at home and on the go. The campaign logo and iconography is used by every Scottish local authority and is being adopted by organisations across the country.

This lesson has been developed to support the work of Zero Waste Scotland with the education sector; it has been created with Curriculum for Excellence (CfE) in mind and has been matched to relevant CfE outcomes across curriculum areas at the second level. Please see the accompanying Links to Curriculum for Excellence in the Teacher's Guide/ Waste Officer's Guide.
