

SCOTTISH BORDERS COUNCIL

CHEVIOT AREA PARTNERSHIP

ROADS ASSET PRESENTATION

WEDNESDAY 30TH JUNE 2021

What is Asset Management

- Strategic Approach
- National Guidance and Road Asset Management Plan (RAMP)
- Annual Financial Review
- Planned Works Programmes
- Association for Public Service Excellence (APSE)
- Performance Measurement (National PI's)

Types of Maintenance

- Planned Maintenance
- Routine and Cyclic Maintenance
- Reactive Maintenance
- Winter Maintenance

Roads Asset's and Types of Planned Repair

- Carriageways (Resurfacing, Surface Dressing and Patching)
- Footways (Resurfacing, Slurry Sealing and Kerbing)
- Drainage (Improvement Works and New Schemes)
- Embankments (Stabilisation, Re-profiling and Erosion Repairs)
- Cattle Grids (Removal and Replacement)
- Street Furniture (Improvement and Replacement)

Gritting of Roads and Footways

- Primary Road Network : 1154 km (39% of all roads) identified as primary routes for treatment and receive precautionary treatment.
- Secondary Road Network : 472 km (16% of all roads) identified to receive treatment next when severe and prolonged winter conditions and resources allow.
- Tertiary Road Network : Remaining roads (including car parks). These will only be treated when extended weather conditions persist.
- Primary Footway Network : Primary routes are identified in larger towns and villages. These receive post-treatment. All other routes are classed as Secondary routes.

2021/22 Budget

- Capital (just under £7million)
- Revenue (just under £5million)
- Winter (just under £3.5million)
- External Funding (STTS/SWCR)
