## **1. Scoring Guide for Assessors**

#### **Project Priority Weighting Matrix Scoring**

#### 26 August 2021

Notes for Assessors:

- 1. This project priority weighting matrix has been developed as a mechanism to assess the priority of projects and for not assessing capital and revenue viability which are dealt with by other processes and illustrated in the SHIP.
- 2. The key criteria for assessment are:
  - Deliverability (weighting 40%)
  - Need (weighting 25%)
  - Strategic fit (weighting 30%)
  - Impact (weighting 5%)

Each key criterion carries a possible score of 100.

3. The secondary criteria provide a more "fine grained" assessment and guidance on how assessors are expected to score each project.

KEY CRITERIA	SCORE	GUIDE TO ASSESSORS	SCORE GUIDE	ACTION
DELIVERABILITY (Weighting 40%)	100	Award a single score out of 100 based on the following assessments		
Land availability	50	The site is in RSL ownership	50	
		The site be available within 1 year	40	
		The site be available within 2 years	30	
		The site be available within 3 years	20	
		The site be available within 4 years	10	
		The site be available within 5 years	0	
		If no land identified or available reject proposal		Reject Proposal
Project programme delivery	25	The project can be implemented at short notice e.g. 12 months		
		If yes	25	
		If no	0	
Constraints	25	Are there any known constraints that would delay delivery of project?		
		No constraints	25	
		Constraints can be resolved within 5 years	5 - 20	
		Constraints unlikely to be resolved		Reject Proposal

KEY CRITERIA	SCORE	GUIDE TO ASSESSORS	SCORE GUIDE	ACTION
NEED (Weighting 25%)	100	Award a single score out of 100 based on the following assessments		
SBC housing need assessment	50	Is need identified through SBC Housing Needs Assessment by HMA/RRTP		
		Assess relative need from Guide-line Data as		
		High	40 - 50	
		Medium	30 - 40	
		Low	< 30	
Other validated sources (by settlement)	30	Is need identified through other validated sources (by settlement)		
		Assess relative need from Guide-line Data		
		High	20 - 30	
		Medium	10 - 20	
		Low	< 10	
Equalities – specific client groups	20	Assess individual project		
		High	15 - 20	
		Medium	10 - 15	
		Low	< 10	

KEY CRITERIA	SCORE	GUIDE TO ASSESSORS	SCORE GUIDE	ACTION
STRATEGIC FIT (Weighting 30%)	100	Award a single score out of 100 based on the following assessments		
Regeneration		Area regeneration in this context is defined as - area redevelopment / brown-field development / housing estate redevelopment / community building / re-provisioning		
		Is this a regeneration project?	Yes / no	
Rurality		Scottish Borders defines smaller rural communities as having a population of approximately <250		
		Is this a small rural community project?	Yes / no	
LHS Priority		Is this project identified in / links with the Local Housing Strategy?	Yes / no	
Part of existing strategy		Is this project part of an existing agreed (or likely to be agreed) strategy?	Yes / no	
Links with non- housing		Does this project link with other non-housing strategies or projects?	Yes / no	
		Assessors to score on the following basis:		
		High strategic fit (must be in LHS)	70 - 100	
		<ul> <li>Medium strategic fit (may not be in LHS but fits in with one or more of other criteria and likely to be included in future LHS)</li> </ul>	50 - 70	
		• Low strategic fit (not in LHS and unlikely to be included in future LHS or does not meet any of the criteria)	< 50	

KEY CRITERIA	SCORE	GUIDE TO ASSESSORS	SCORE GUIDE	ACTION
IMPACT (Weighting 5%)	100	Award a single score out of 100 based on the following assessments		
		Assessors are to consider, in broad terms, the sustainability of the project in relation to the community and those who live in it.		
Social	50	Is the project likely to have a positive social impact?		
		Yes	25 - 50	
		Neutral	25	
		No	< 25	
Economic	25	Is the project likely to have a positive economic impact?		
		Yes	15 - 25	
		Neutral	15	
		No	< 15	
Environmental	25	Is the project likely to have a positive environmental impact?		
		Yes	15 - 25	
		Neutral	15	
		No	< 15

# **3. Accelerated Projects Summary**

As outlined in the SHIP in Chapter 4, a number of projects have been accelerated into the Strategic Local Programme Agreement during 2020/21, most of which have enabled, or is envisaged to spend Affordable Housing Supply Programme funding. In addition some new projects have been included in this SHIP 2022/27 for the first time.

These projects are summarised below:

#### **Abbotsford Court Galashiels**

Cairn HA have fully funded and progressed the remodelling works to form 2 additional flats within an existing popular older peoples' housing development. This project was identified in SHIP 2021/26, Table 8, as a Potential Pipeline Development Project. Works completed in July 2021.

#### Acredale Phase 5 and 6 Eyemouth

Berwickshire HA own a large site at Acredale Eyemouth. Development of Ph4 is being actively progressed with the Planning Application being the next project milestone. Design work for the remained of the site is being progressed, and current thinking indicates that this is likely to be developed over a further 2 phases with programming and numbers to be clarified in due course.

This was previously identified in SHIP 2021/26, Table 8, as Phase 5 as being a Potential pipeline development project.

#### Allars Crescent Hawick

Scottish Borders HA intends to explore options to carry out a housing regeneration project at Allars Crescent Hawick. Scottish Government More Homes Division has agreed to grant assist the RSL to acquire 2 privately owned flats in order to assist SBHA secure 100% ownership of the affected blocks.

#### Auction Mart Newtown St. Boswells

Mixed use redevelopment proposals for the Mart have recently secured Planning Permission in Principle for up to 150 new homes. It is envisaged that 25% of these will require to be on-site affordable housing, which equates to up to 37 new homes. The Developer has indicated their intention to collaborate with Scottish Borders HA to deliver these homes. This project was identified in SHIP 2021/26, Table 8, as a Potential pipeline development project.

#### **Beanburn Phase 2 Ayton**

Berwickshire HA have owned the Beanburn site as part of the stock transfer deal from the former Berwickshire District Council in 1995. Design for the whole site was undertaken as a single exercise and secured Planning Consent. Construction of Ph1 completed in July 2021. The remainder of the site is known as Ph2 and was identified in SHIP 2021/26, Table 8, as a Potential pipeline development project.

#### **Bogangreen Coldingham**

Eildon HA is progressing site acquisition discussions with a developer with a view towards developing around 20 units at this location. This was previously identified in SHIP 2021/26, Table 8, as a Potential Pipeline Development Project.

#### Comrades Park East Chirnside

Following an approach by the Developer, Eildon HA has acquired this site which has Planning Consent for 57 units. The house type/size mix is being reviewed with a view towards provision of 2 wheelchair standard houses. It is envisaged that this will not impact on the proposed unit numbers. This was previously identified in SHIP 2021/26, Table 8, as a Potential pipeline development project.

#### Former Howdenburn Primary School Jedburgh

Following a marketing exercise by the Council, a preferred Developer has been selected and sale agreed subject to Planning Consent. The Developer has approached Eildon HA with a view towards delivery of around 66 units. Design work is progressing with the Planning Application being the next major project milestone. This was previously identified in the SHIP 2021/26, Table 8, as a Potential Pipeline Development Project.

#### **Springfield Phase 3 Duns**

Berwickshire HA acquired this site in 2020/21 assisted by available Scottish Government grant funding. This is the final phase of affordable housing at this location, where Ph1 is complete and Ph2 is under construction. It was identified in SHIP 2021/26, Table 8, as a Potential Pipeline Development Project.

In addition to the above projects a number of completely new projects have also been included in this SHIP 2022/27. These are as follows -

#### Hermitage House Selkirk

Eildon HA are currently exploring options for a potential remodelling and new build for this existing privately owned property with a view towards provision of Amenity Housing for older people. This is a new project.

#### Home Farm Eccles

Eildon HA acquired this site in 2020/21, as a new landbank site opportunity, assisted by available Scottish Government grant funding, pending clarification of future Scottish Water investment requirements as a precursor to development of the site. This is a new project.

#### Leishman Place Hawick

SBHA own this small cleared site in Burnfoot. Proposed new build housing here will provide an element of housing led area regeneration activity.

#### Linglie Road Selkirk

Privately owned site. This is a green field site opportunity for around 20 new build homes.

#### **Stonefield Place Hawick**

This site is owned by SBHA which was formerly occupied by blocks 5/6 Stonefield Place. SBHA have been considering options for the site. When redeveloped, this will be the final phase of development in the housing led regeneration of the Stonefield Estate.

#### **Milestone Newtown St. Boswells**

This site is privately owned and is located adjacent to the Garden Centre. It was identified in previous SHIPs prior to the financial crash. This a Developer led opportunity with Eildon HA being approached again as potential RSL delivery partner.

Constraints	None						
Site Ownership:	BHA ownership						
<ul> <li>Housing Market Area</li> </ul>	Berwickshire						
Other Information	All homes to Scottish Government Greener Homes Standard.						
<ul> <li>Deliverability:</li> </ul>	Probability: The site southerly sloping site is immediately adjacent to Acredale 3 which						
	was completed in October 2018. No planning issues are envisaged and no risk of						
	flooding is anticipated. Access is through the Hallydown Cres adjacent and through						
	Acredale 2 and Acredale 3. Services are adjacent and pipework in Phase 3 has been						
	sized to accommodate Phase 4/5/6. This site is zoned for housing (site ref: BEY2B) in						
	the current Local Development Plan.						
Need:	Rural Housing Scotland was recently commissioned by BHA to undertake a housing						
	needs survey of Eyemouth. The survey concluded that 87% of people surveyed thought						
	that Eyemouth needed more housing built to meet local needs. Acredale phase 2						
	continues to support high levels of applicant need in the area as will Acredale 3. This						
	provision will also assist in meeting some of the demand for housing within this area,						
	especially for one bedroom flats. This location will provide easy access to local						
	amenities and would suit a provision of family housing.						
Strategic Fit:	Links with aims and objectives of LHS						
Impact:	High						
• EIA	It is anticipated that there are no adverse equality implications from the delivery of this

•	Constraints	Under construction. Design includes flood prevention works to resolve sporadic flooding
		from the adjacent land. Planning Consent granted for both phases.
٠	Site Ownership:	ВНА
٠	Housing Market Area	Berwickshire
٠	Other Information	All homes to Scottish Government Greener Homes Standard.
•	Deliverability:	Probability 85%
٠	Need:	BHA commissioned a Housing Needs Assessment of Ayton by Rural Housing Scotland
		(February 2018). It showed that 71% of respondents wished additional low cost housing in
		Ayton. Based on the recommendations, BHA have requested that the design proposals
		include family housing and bungalows to reflect the requested need. Vehicular access will
		be taken from Summerhill Park which will extend existing access. A pedestrian/cycle link
		will be provided to the primary school.
•	Strategic Fit:	Links with aims and objectives of LHS

·	exercise.							
<ul> <li>Housing Market Area</li> </ul>	Berwickshire							
Other Information	Homes to be highly energy efficient with all units built to Scottish Government Greener Standard.							
Deliverability:	Probability: Design and programme is dependent on outcome of SBC Primary School consultation and then progressing a joint master planning exercise in collaboration with SBC and Trust HA, and the demolition of former school buildings. The site of BHA homes remains to be agreed and will probably require excambion.							
• Need:	There is a very strong demand in all Eyemouth Areas with an average of 55 applicants per le the highest number of applicants for a recent property being 106. Acredale phase 1, consisting of 19, 2 and 3 bedroom houses was completed in late 2007 had high levels of applicant demand. In addition approximately 50% of Section 5 referrals in Berwickshire are for the Eyemouth area. This area is also very popular for migrant workers looking for family housing within the town. This provision plus later phases will assist in meeting some of the demand for housing within this area.

## The rural proofing checklist

Consider all the questions below. Will your initiative encounter the challenges presented by rural circumstances? Some potential solutions are indicated to help you consider appropriate adjustments.

Name of policy/ strategy: Scottish Borders Strategic Housing Investment Plan (SHIP) 2022-27

#### Date checklist completed: 7 July 2021

# Completed by: Gerry Begg Lead Officer – Housing Strategy, Policy and Development. Scottish Borders Council.

RU	RURAL ISSUE		No	POTENTIAL IMPACT/ ADJUSTMENT
1.	Will the SHIP have a negative affect on the availability or delivery of services for people living in rural areas? In general the delivery of SHIP will have a positive effect, with developments in more rural locations and in less accessible rural locations.		~	Summary of likely impacts: Summary of adjustments made: Other Comments:
2.	Will access to the service be restricted for people living in rural areas? It is possible that RSLs may consider Local Lettings initiatives during this SHIP although these may not be considered in some of the areas identified for development.		~	Summary of likely impacts: Will allow for overcrowded/ under occupying households to remain within the same community Summary of adjustments made: Other Comments:
3.	Will the cost of delivery be higher in rural areas (where customers are more widely dispersed or it is hard to be cost-effective)? If yes, how will this extra cost be met or lessened? Rural solutions: allow for higher unit delivery costs when calculating costs (e.g. a 'sparsity' factor) or when specifying cost-efficiency criteria; encourage joint provision to reduce costs.	√		Summary of likely impacts: Increased building and management costs due to housing being located near to rural population by sustaining rural communities may reduce cost related to other services provided by public sector. Summary of adjustments made: Projects in this year's SHIP include affordable and modern methods of construction and renewable technologies. Other Comments: Most of Scottish Borders Council area is defined using Scottish Government urban/rural classification as being categories 6 and 7.

RU	RAL ISSUE	Yes	No	POTENTIAL IMPACT/ ADJUSTMENT
4. Will the SHIP have a negative affect on the availability of affordable housing in rural areas? Rural solutions: consider provision of alternative affordable rural housing solutions.			*	<ul> <li>Summary of likely impacts: Outcomes of SHIP will have a positive impact by increasing supply of affordable housing in rural and other locations.</li> <li>Summary of adjustments made: A rural weighting has been developed in the Project Priority Assessment Matrix to ensure that rural projects are not disadvantaged.</li> <li>Other Comments: The SHIP may potentially stimulate and drive the private market in delivering affordable housing to rural areas.</li> </ul>
5.	Will the SHIP be delivered by the private sector, or through a public-private partnership or local institution that may limit provision in rural areas? Private sector has role to play through the provision of land through Section 75 Agreements and carrying out development but will not limit provision of affordable housing in rural areas.		¥	Summary of likely impacts: Summary of adjustments made: Other Comments:
6.	Does the SHIP rely on infrastructure for delivery (e.g. mobile phone coverage, broadband ICT, main roads, utilities) that may be limited in rural areas?	~		Summary of likely impacts: Lack of infrastructure which impacts on development opportunity and timing of deliverability - lack of utilities in particular. Summary of adjustments made: Engaged utilities in the SHIP process and through regular meetings in order to identify project utility requirements availability to ensure deliverability. Infrastructure constraints are taken in to account in the Deliverability criteria assessment. Quarterly meetings are held with Scottish Water and SEPA. Other Comments:

RURAL ISSUE		No	POTENTIAL IMPACT/ ADJUSTMENT	
		~	Summary of likely impacts: Summary of adjustments made:	
7. Will the SHIP have a negative impact on rural businesses, or land-based businesses, (including the self-employed) and therefore, on rural economies and environments?			Other Comments: Housing development will have positive impacts through economic enhancement and providing a range of different opportunities, which primarily create housing, jobs and sustainability of communities. It also creates opportunities for diversification for traditional land based business (ie; farmers and forestry). In addition housing developments will create a range of training opportunities, including modern apprenticeships. Procurement processes may also seek to provide community benefits.	
8. What will be the impact of the policy on employment in rural areas?			Summary of likely impacts:	
SHIP should have a positive impact on employment in rural areas, creating rural jobs and opportunities for rural businesses	√		Summary of adjustments made:	
The SHIP provides affordable housing for people on lower incomes ensuring community sustainability and retaining social networks particularly in a low wage economy of Borders.			Other Comments:	
9. Is the SHIP to be targeted at disadvantaged people? If yes, how will it target rural		~	Summary of likely impacts:	
disadvantage, which is not usually concentrated in neighbourhoods?			Summary of adjustments made:	
			Other Comments: Helps to sustain communities and rebuild social networks by increasing the supply of affordable housing which provides access to people on all levels of income.	
10. Will the SHIP take into account the different size and needs of smaller rural schools and	<b>√</b>		Summary of likely impacts:	
other service facilities?			Summary of adjustments made:	
SHIP is the delivery plan for affordable housing which dovetails with the Council's Local Housing Strategy which aligns with other plans and strategies.			Other Comments:	

## Steps to take

- 1. Ensure you are clear about the objectives of the proposed policy, its intended impacts or outcomes (including which areas, groups or organisations should benefit) and the means of delivery.
- 2. Run through each question in the checklist, identifying where the proposed policy is likely to have a different impact in rural areas.
- 3. Where there is uncertainty or a potentially different (worse) impact, this should be investigated further (and included in the overall assessment of the costs and benefits of the policy).
- 4. Where the impact in rural areas will be significantly different, explore policy options to produce the desired outcomes in rural areas or avoid/ reduce any undesirable impacts. This exercise may also highlight opportunities to maximise positive impacts in rural areas.
- 5. Feed the results of your appraisal, including solutions, into the decision-making process and ensure a record is kept, to be included in your Department's annual proofing report.

## Integrated Impact Assessment (IIA)

Part 1 Scoping

## **1** Details of the Proposal

Title of Proposal:	Strategic Housing Investment Plan 2022-2027		
What is it?	An annual revised plan submission as required by Scottish Government.		
<b>Description of the proposal:</b> (Set out a clear understanding of the purpose of the proposal being developed or reviewed (what are the aims, objectives and intended	The Council's Local Housing Strategy 2017-22 is the Statutory strategy which provides and overview of the issues and challenges of the Scottish Borders housing context, and sets out the Council's 4 strategic housing priorities. This was developed through a broad process of engagement and a consultative approach in order to arrive at the four strategic priorities.		
	<ol> <li>The supply of housing meets the needs of our communities</li> <li>More people live in good quality energy efficient homes</li> <li>Fewer people are affected by homelessness</li> <li>More people are supported to live independently in their own homes</li> </ol>		
outcomes, including the context within which it will operate)	The Strategic Housing Investment Plan is an implementation plan which provides a rolling 5 year planning horizon to set out prioritised affordable housing projects which the Council and delivery agents propose to deliver new supply affordable housing in order to support the delivery of the above priorities. The SHIP 2022-2027 is the 13 <sup>th</sup> such submission to Scottish Government. The development of the SHIP is made possible by mature processes in order to identify, prioritise and deliver identified projects across a programme approach. The development of the SHIP is framed by Scottish Government Guidance and is underpinned by Resource Planning Allocations provided by Scottish Government, plus additional grant contributions from the Council.		

	<ul> <li>Local Authorities are required to produce and submit an annual SHIP to the Scottish Government for review. Scottish Borders Council has prepared this SHIP update in consultation with the SHIP Working Group in order to articulate how the Council will assist the Government in targeting its Affordable Housing Supply Programme funding and, how the Council's affordable housing investment needs identified in the Council's Local Housing Strategy (LHS) 2017-2022 will be prioritised and addressed in practice over a five year period.</li> <li>The SHIP 2022-27 aims to: <ul> <li>Prioritise the delivery of affordable housing over the next five years</li> <li>Form the basis for more detailed programme planning and prioritises projects.</li> <li>Deliver on priority outcomes identified in the Local Housing Strategy 2017-2022</li> <li>Highlight progress for delivery of affordable housing over 2020-2021.</li> </ul> </li> <li>This needs to be read in conjunction with the LHS which is published separately and is available on the Council's website.</li> </ul>
Service Area: Department:	Planning and Housing Service Assets and Infrastructure
Lead Officer: (Name and job title)	Gerry Begg Lead Officer – Housing Strategy, Policy and Development
<b>Other Officers/Partners involved:</b> (List names, job titles and organisations)	The responsibility of developing the SHIP rests with Scottish Borders Council but its implementation is dependent on partnership working with a whole range of external organisations. Key partners include Registered Social Landlords (RSLs), housing developers and various Departments within SBC
Date(s) IIA completed:	26 <sup>th</sup> August 2021

## 2 Will there be any cumulative impacts as a result of the relationship between this proposal and other policies?

#### Yes

#### If yes, - please state here:

The affordable housing investment priorities detailed in the SHIP cover the period 2022-2027, and align with, and are consistent with the Council's Local Housing Strategy (LHS) identified priorities. It will help inform the Scottish Government's Affordable Housing Supply Programme funding investment decisions and the preparation of the Scottish Government's Strategic Local Programme Agreements (SLPA).

The SHIP is not a standalone plan, it links to a number of other inter-agency strategies, policies and planning structures :

- Registered Social Landlord Business Plans and Strategies
- Community Planning Partnership
- Scottish Borders Health and Social Care Integration Strategic Plan
- Integrated Strategic Plan for Older People's Housing, Care and Support Needs 2018-28
- Housing Needs and Aspirations of Borders Young People Study
- Scottish Borders Local Development Plan
- Local Outcome Improvement Plan
- Local Housing Strategy 2017-2022
- SESplan Housing Need and Demand Assessment 2
- Rapid Rehousing Transition Plan 2019 2024
- Scottish Borders Economic Strategy 2023

All these plans are linked to delivery of the affordable housing projects being proposed in the SHIP. It is considered that the delivery of the proposed affordable housing set out in SHIP 2022/2027 will have a positive impact to support the above plans and strategies.

## 3 Legislative Requirements

## **3.1** Relevance to the Equality Duty:

#### Do you believe your proposal has any relevance under the Equality Act 2010?

(If you believe that your proposal may have some relevance – however small please indicate yes. If there is no effect, please enter "No" and go to Section 3.2.)

Equality Duty	Reasoning:
Elimination of discrimination (both direct & indirect), victimisation and harassment. (Will the proposal discriminate? Or help eliminate discrimination?)	Yes. The implementation of the SHIP will have a positive impact on the population of the Scottish Borders by increasing the supply of affordable homes and supporting the delivery of the 4 LHS priorities as set out in Section 1 above.
<b>Promotion of equality of opportunity?</b> (Will your proposal help or hinder the Council with this)	Yes. The development and implementation of the SHIP is underpinned by the promotion of equality of opportunity. The proposed projects are almost all being delivered by Registered Social Landlords, which operate within a statutory monitoring framework and published reporting via regulation and inspection overseen by the Scottish Housing Regulator. Promotion of equalities is embedded within the scope of this Statutory Regulation regime.
<b>Foster good relations?</b> (Will your proposal help or hinder the council s relationships with those who have equality characteristics?)	Yes. Scottish Borders Council ceased to be a Council house landlord organisation in March 2003 as the result of the successful transfer of its homes to Scottish Borders Housing Association. The implementation of the SHIP is dependent on partnership working and requires engagement with a wide range of stakeholders. Through implementation of SHIP and delivery of individual projects there is the opportunity to engage communities and those people with equality characteristics, such as older people, people with a physical disability, or mental health need or learning disability.

# 3.2 Which groups of people do you think will be or potentially could be, impacted by the implementation of this proposal? (You should consider employees, clients, customers / service users, and any other relevant groups)

Please tick below as appropriate, outlining any potential impacts on the undernoted equality groups this proposal may have and how you know this.

		Impact		
	No Impact	Positive Impact	Negative Impact	Please explain the potential impacts and how you know this
Gender Reassignment Trans/Transgender Identity, Marriage or Civil Partnership, Pregnancy and Maternity, Religion or Belief, Sex – Gender Identity and Sexual Orientation		✓		The delivery of new affordable homes improves access to housing for all. There is likely to be a positive impact on these groups, and outcomes will be monitored through the life span of the LHS (the overarching strategy) and through the delivery of specific housing and support services. The Scottish Housing Regulator has a role in monitoring Registered Social Landlord Allocations, policies, procedures and services.
<b>Age</b> (Older or younger people or a specific age grouping)		✓		Children (19,046), young people (10,238) and older people (28,103) account for 50% of the population of the Scottish Borders and will benefit from the successful implementation of the SHIP. Increasing the supply of new affordable homes that meets the needs of communities should provide a range of choice of homes for families, which in turn should benefit the health and well-being of children, young people and older people. Older people are one of the key client groups identified in the Independent Living objectives of the LHS. It clearly identifies the projected growth of this client group and identifies actions which should help meet the housing needs of older people. This will require effective joint working with Health and Social Care (Integration), RSLs and other private and voluntary sector organisations. Older and other vulnerable people with particular housing needs are prioritised for re-housing or assistance and grants for housing improvement and adaptations through the Care and Repair Service.

<b>Disability</b> (e.g. Effects on people with mental, physical, sensory impairment, learning disability, visible/invisible, progressive or recurring)	V	*	The LHS sets out an assessment of housing and the housing needs of people with disabilities. The current SHIP is informed through evidence base from the LHS 2017-2022, the joint Strategic Needs Assessment, the Strategic Plan, the Housing Need and Demand Assessment (HNDA) 2 and the Integrated Strategic Plan for Older People's Housing Care and Support. As part of the SHIP Guidance 2019 and 2020, Local Authorities are required to promote a greater focus on wheelchair accessible housing, providing a position statement and annual target the SHIP. The Council commissioned an independent Wheelchair Housing Study which reviewed the current evidence base and engaged with wheelchair users and stakeholders as part of the research. The final report has informed the Council and partners to help set the affordable wheelchair accessible houses target for delivery over the next five years as part of our broader plans for specialist provision. The SHIP proposes a range of homes intended for people with particular housing needs, and the new supply homes provide opportunities to be allocated to an applicants with range of housing needs in accordance with individual RSL Allocation Policies. RSL Allocations activity is also within the scope of the Scottish Housing Regulator's oversight.
<b>Race Groups</b> (including colour, nationality, ethnic origins, including minorities (e.g. gypsy travellers, refugees, migrants and asylum seekers))	v	·	A key objective of the Local Housing Strategy, and therefore, the SHIP is to eliminate discrimination; therefore, the SHIP is intended to have a positive effect on the promotion of equality, and takes into account the needs of a range of households in local communities in the Scottish Borders Previous research commissioned by the Council's Housing Strategy Team into the Housing Needs of Minority Ethnic Communities in the Scottish Borders concluded that minority ethnic households see housing as becoming less affordable, and affordable homeownership options should be promoted to minority ethnic households. There is also some evidence that some ethnic minority families would like to access larger home sizes in the social rented sector. This position has not changed. The Scottish Housing Regulator has a role to monitor the allocations, policies , procedures and services provided by RSLs.

#### 3.3 Fairer Scotland Duty

This duty places a legal responsibility on Scottish Borders Council (SBC) to actively consider (give due regard) to how we can reduce inequalities of outcome caused by socio-economic disadvantage when making <u>strategic</u> decisions.

The duty is set at a strategic level - these are the key, high level decisions that SBC will take. This would normally include strategy documents, decisions about setting priorities, allocating resources and commissioning services.

#### Is the proposal strategic?

Yes

If yes, please indicate any potential impact on the undernoted groups this proposal may have and how you know this:

		Impact		
	No Impact	Positive Impact	Negative Impact	State here how you know this
Low and/or No Wealth – enough money to meet basic living costs and pay bills but have no savings to deal with any unexpected spends and no provision for the future.		√		Better homes can lead to some improvements in self-reported physical and mental health and reductions in some symptoms. Heating improvements and energy efficiency measures can improve the indoor environment and also alleviate fuel poverty which can improve the occupant's health and wellbeing against current Public Health Reform priorities and actions. The affordable housing projects set out in this SHIP will aim to seek to maximise the opportunities for energy efficiency and reduction of fuel poverty and to achieve the Silver Standard as a minimum thus meeting the Scottish Housing Condition Standards (SHQS) and Energy Efficiency Standard for Social Housing (EESSH and EESSH2).
Material Deprivation – being unable to access basic goods and services i.e. financial products like life insurance, repair/replace broken electrical goods, warm home, leisure and hobbies		✓		The SHIP sets out the Council's partnership approach to delivery good quality affordable and energy efficient homes to meet the needs of Borders communities. The SHIP sets out the strategic policy document to enable the delivery of high quality homes and housing related services across tenures to meet identified needs in the Scottish Borders.

Area Deprivation – where you live (e.g. rural areas), where you work (e.g. accessibility of transport)	~	The SHIP links with the Scottish Borders Economic Development Strategy and Corporate Plan, called `Our Plan and Your Part In it'. Delivery of the SHIP also links and supports the Council to deliver on its `Connected Borders' Vision for delivering better communities in
Socio-economic Background – social class i.e. parents' education, employment and income	✓	the next 5 years (2017 – 2022) helping our communities have the skills, ambition and sense of purpose to lead the Scottish Borders into the future, a future that delivers economic growth and sustainable development, a future that builds our communities into strong, energetic towns and villages.
Homelessness	~	The Project Priority Assessment Tool is a project priority weighting matrix that has been developed to provide a bottom up assessment of relative priorities of housing projects delivered by Registered Social Landlords (RSLs) in order to increase the supply of new affordable homes in order to meet identified needs and pressures. The Rapid Rehousing Transitional Plan has been referred to in this year's project prioritisation process. The intention is to embed the Housing First approach in local plans to increase the supply of new affordable homes to ensure that there is enough affordable homes available to meet local needs.
Looked after and accommodated children and young people, Carers, Addictions and substance use and those involved within the criminal justice system	~	The SHIP sets out the Council's partnership approach to enable the delivery of high quality homes and housing related services across tenures to meet identified need in the Borders.

## 4 Full Integrated Impact Assessment Required

Select No if you have answered "No" to all of Sections 3.1 - 3.3.

No

#### If a full impact assessment is not required briefly explain why there are no effects and provide justification for the decision.

The Strategic Housing Investment Plan 2022-2027 is one of a number of strategies and plans that underpin the LHS, and support the delivery of actions to deliver the Local Housing Strategy (LHS) 2017-2022. The LHS has been subject to a full Equality Impact Assessment. The LHS is monitored and reported annually to Council. This ensures that areas that require further action are identified and addressed as part of this process.

Scottish Borders Council

Pre-Screening has been undertaken in accordance with the Environmental Assessment (Scotland) Act 2005 Section 7 (1).

The pre-screening assessment identified no or minimal effects in relation to the environment hence the SHIP is exempt from SEA requirements under Section 7 (1) of the Act.

## SEA PRE-SCREENING REPORT – KEY FACTS

Responsible Authority	Scottish Borders Council
Title of PPS	Scottish Borders Council's Strategic Housing Investment Plan
Purpose of PPS	The SHIP sets out how investment in affordable housing will deliver the priorities in the Local Housing Strategy (LHS) 2017-2022.
What prompted the PPS (e.g. a legislative, regulatory or	Legislative Requirement
administrative provision) Subject	Investment in Affordable Housing Development
(e.g. transport) Period covered by PPS	2022-2027
Frequency of updates	Annual
Area covered by PPS (e.g. geographical area – it is good practice to attach a map)	Geographical Boundary of Scottish Borders
Summary of nature/ content of PPS	The SHIP is the key document for targeting investment in Affordable Housing in the Scottish Borders. It shows how the affordable housing investment priorities set out in the Local Housing Strategy 2017-2022 will be delivered in practice over 5 years from 2022-27. The SHIP includes affordable housing supply through new provision and regeneration.
Are there any proposed PPS objectives?	YES NO
Copy of objectives attache	ed YES NO
Date	7 July 2021

#### **SEA PRE-SCREENING REPORT**

Our determinations regarding the likely significance of effects on the environment of **Scottish Borders Council's Strategic Housing Investment Plan** is set out in Table 1.

#### TABLE 1 – LIKELY SIGNIFICANCE OF EFFECTS ON THE ENVIRONMENT

## TITLE OF PPS

Scottish Borders Council's Strategic Housing Investment Plan 2022-2027

#### **RESPONSIBLE AUTHORITY**

Scottish Borders Council

Criteria for determining the likely significance of effects on the environment refer to paragraphs in Schedule 2 of the Environmental Assessment (Scotland) Act 2005)	Likely to have significant environmental effects? YES/NO	Summary of significant environmental effects (negative and positive)
1(a) the degree to which the PPS sets a framework for projects and other activities, either with regard to the location, nature, size and operating conditions or by allocating resources	NO	The Strategic Housing Investment Plan (SHIP) update 2022-27 articulates how the Council's affordable housing investment needs identified in the LHS are prioritised for investment and delivered at a local level. The SHIP will prioritise affordable housing and inform the Strategic Local Programme in order to meet the affordable housing supply targets set out in the LHS and as ranked by the Affordable Housing Project Priority Weighting Matrix (AHPPWM) <sup>1</sup> .
		<ul> <li>The SHIP:</li> <li>Provides a practical plan detailing how the LHS investment priorities can be delivered;</li> <li>Forms the basis for more detailed programme planning; and</li> <li>Informs the allocation of resources from a national to local authority level.</li> <li>Identifies the resources required to deliver the priorities.</li> <li>Enhance the linkages between Planning and Housing</li> <li>The majority of sites will be identified through the Development Plan process, however there are a number of sites which are classified as windfall and not allocated within the Development Plan. Such sites will not have been subject to the SEA process through the Local Development Plan</li> </ul>

<sup>&</sup>lt;sup>1</sup> Affordable Housing Priority Weighting Matrix developed by Scottish Borders SHIP Project Group

1(b) the degree to which the PPS influences other PPS including those in a hierarchy	NO	The SHIP is the delivery mechanism for the affordable housing investment element of the LHS, set within the context of the Development Plan, Single Outcome Agreement and Members Ambitious for the Borders targets. As such, the SHIP has no influence on plans or strategies at a higher level. The SHIP links with the LHS, and informs the strategic local programme (SLP) and the Single Outcome Agreement. Affordable housing projects have been prioritised according to need, deliverability, strategic fit, social and economic impact (including rurality) as determined by the AHPPWM. The hierarchy of relevant strategies is as follows: 1. LOIP 2. Strategic Plan (including SESPlan) <sup>2</sup> 3. Local Development Plan 4. Local Housing Strategy 5. Corporate Priorities 6. SHIP 7. SLPA
1(c) the relevance of the PPS for the integration of environmental considerations in particular with a view to promoting sustainable development	NO	<ul> <li>The Planning System provides the framework for sustainable development. All project developments identified in the SHIP are consistent with planning requirements.</li> <li>The Planning etc (Scotland) Act 2006 and The Planning (Scotland) Act 2019 places the principles of sustainability at the heart of the development process through its requirement for high quality design, safe inter-connected movement, accessibility and enhanced biodiversity.</li> <li>The Local Plan identifies the need for schemes to contribute to sustainable development through ensuring a proper balance between supply and demand locally.</li> <li>The Local Plan contains a suite of environmental policies and sustainability principles that will apply to projects identified in the SHIP.</li> <li>The Council's Registered Social Landlord (RSL) partners have in place design guides and sustainability policies that will help promote sustainable development.</li> <li>Whilst sustainable development will be integral to the implementation of the SHIP, it is unlikely that there will be significant environmental effects due to the proportion of overall development within the Scottish Borders, which the SHIP represents.</li> </ul>

<sup>&</sup>lt;sup>2</sup> The SESPLAN and the Local Development Plan have both subject to SEA exercises.

1(d) environmental problems relevant to the PPS	NO	The majority of sites will be identified through the Development Plan process, however there are a number of sites which are classified as windfall and not allocated within the Development Plan. Such sites will not have been subject to the SEA process through the Local Development Plan Environmental problems relevant to the SHIP are likely to be limited to short-term issues associated with construction. These are not considered as significant.
1(e) the relevance of the PPS for the implementation of Community legislation on the environment (for example, PPS linked to waste management or water protection)	NO	The SHIP is not directly relevant to the implementation of Community legislation on the environment.
2 (a) the probability, duration, frequency and reversibility of the effects	NO	Short-term effects during construction activities will be mitigated through site management procedures.
2 (b) the cumulative nature of the effects	NO	Cumulative effects from the implementation of the SHIP will be limited as the SHIP relates to a limited scale of development. Issues associated with energy, water, and waste is addressed through policies contained within the Development Plan or separate strategies such as the Waste Strategy. Development in regeneration areas is likely to have beneficial effects.
2 (c) transboundary nature of the effects (i.e. environmental effects on other EU Member States)	NO	NONE
2 (d) the risks to human health or the environment (for example, due to accidents)	NO	Any risks associated with the construction phase will be addressed through Health and Safety legislation and contractual requirements placed upon those companies appointed to undertake construction works. This programme is positive to human health. Well designed, energy efficient homes contribute to health and wellbeing of individuals and the community.
2 (e) the magnitude and spatial extent of the effects (geographical area and size of the population likely to be affected)	NO	The SHIP covers the entire Scottish Borders area. The scale of effects will differ depending on location. Overall, the effects will not be significant.

<ul> <li>2 (f) the value and vulnerability of the area likely to be affected due to-</li> <li>(i) special natural characteristics or cultural heritage;</li> <li>(ii) exceeded environmental quality standards or limit values; or</li> <li>(iii) intensive land-use.</li> </ul>	NO	The majority of sites will be identified through the Development Plan process, however there are a number of sites which are classified as windfall and not allocated within the Development Plan. Such sites will not have been subject to the SEA process through the Local Development Plan Sites allocated in the Local Development Plan are subject to rigorous environmental assessment.
2 (g) the effects on areas or landscapes which have a recognised national, Community or international protection status	NO	The majority of sites will be identified through the Development Plan process, however there are a number of sites which are classified as windfall and not allocated within the Development Plan. Such sites will not have been subject to the SEA process through the Local Development Plan Sites allocated in the Local Development Plan are subject to rigorous environmental assessment.

#### **SEA PRE-SCREENING REPORT**

A summary of our considerations of the significant environmental effects of **Scottish Borders Council's Strategic Housing Investment Plan** is given below.

#### TABLE 2 – SUMMARY OF ENVIRONMENTAL EFFECTS

The Strategic Housing Investment Plan (SHIP) and complementary Strategic Local Programme Agreement (SLPA) are low-level plans sitting below the Local Housing Strategy and the Local Development Plan within the hierarchy.

The Local Development Plan identifies sites for development following consideration of a wide range of sustainability issues, including comprehensive environmental assessment. The Strategic Plan and the Local Development Plan are both subject of full Strategic Environmental Assessments.

The SHIP is a strategic investment tool by which to deliver the affordable housing priorities identified in the Local Housing Strategy. The SHIP does not allocate sites for development, nor does it influence plans and strategies above it in the hierarchy.

Environmental effects resulting from the SHIP are limited. All housing development programmes have a number of general environmental impacts to consider including embodied energy, waste, water consumption, and transport.

Policies exist at national and local level to ensure that these issues are identified and addressed during strategy development and implementation. Key strategies and policy documents relevant to the SHIP include the Strategic Development Plan, Local Development Plan, Waste Strategy, Local Transport Plan, and supplementary planning guidance dealing with issues that include biodiversity, landscape, and energy efficiency.

The SHIP will have positive effects on human health through the provision of additional affordable housing.

The total amount of development that will be implemented through the SHIP will be relatively limited. A comprehensive suite of policies for environmental protection and enhancement, together with those relating to wider sustainability issues exist at local and national level to ensure these issues are addressed during project delivery.

It is considered that the environmental effects arising from the SHIP will not be significant.
